

Summer 2021 Covid-19 Protocol

(VMBC will always comply with local, state and federal health orders.)

Staff and parent requirements:

- We will maintain social distancing.
- We will wash our hands often.
- If we are sick, we will stay at home.
- Masks will be worn at all times unless actively moving on a bike or when outside of designated mask zones.
- Designated mask zones include drop-off and pick-up, anywhere required by Town of Vail and when in any Vail Mountain Base Areas.
- If a staff member becomes symptomatic during camp, they will leave immediately and quarantine appropriately. Staff members will also be tested for COVID-19.

Steps we will take to ensure the safety of the kids:

- As kids arrive at camp, they will be immediately assigned to their small groups of 3-6 kids per group. Kids stay in their small groups the entire time at Kid's Camp.
- Total camp size does not exceed 30.
- Waivers will be signed and emailed to us in advance prior to the start of camp, to eliminate the registration table.
- Parents are encouraged to make sure bikes are working properly and helmets fit properly, prior to coming to camp, to eliminate staff contact with the kids.
- While riding with the kids in our small groups, we will stay a safe distance away from other people and groups around Vail Village.
- If kids are staying for the afternoon program, we will maintain a safe distance away from other people and groups, while eating lunch.
- If a participant becomes symptomatic during camp, they will leave the group immediately and isolate until parents are able to pick up.
